**Family Health Plus** is a public health insurance program for adults between the ages of 19 and 64 who do not have health insurance, either on their own or through their employers but have incomes too high to qualify for Medicaid.

**Family Health Plus** is available to single adults, couples without children, and parents with limited income who are residents of New York State and are United States citizens or fall under one of many immigration categories.

**Family Health Plus** provides comprehensive coverage, including prevention, primary care, hospitalization, prescriptions and other services. There are no premiums to participate in Family Health Plus.
